COMMERCIAL KITCHEN LIGHTING

The right lighting is absolutely key for commercial kitchens, which must meet rigorous standards of cleanliness, as well as cooking appealing foods. Besides providing a clear view of the food being cooked, good lighting also helps prevent injuries, such as cuts and burns. Most commercial kitchen lighting relies on large fluorescent fixtures for general light, and track lighting for task areas. In many restaurant kitchens, these are utilitarian fixtures, but in some restaurants part of the experience is being able to see the chefs at work. If the kitchen is visible to the guests, kitchen light fixtures should be in keeping with the overall decor of the establishment.

BABY COMFORT OASIS DIAPER CHANGE STATION

- Non-porous polyethylene is easy to keep sanitary and will not absorb moisture or odors
- Smooth texture and softly rounded corners allow for easy cleaning and disinfection
- Conforms to ADA Article 4.4.1 (projects only 4" from the wall when closed)
- Molded-in dual liner dispenser accommodates approximately 50 plastic lined bed liners
- Concave bed and deep side walls provide a safe surface for changing
- Contoured bag hooks, one for purse and one for diaper bag
- Hinge system supports 250 lb. static load
- Heavy-duty safety straps for child security
- Bilingual user friendly instructions • Includes installation parts
- Color: White
