

APPROVED SUPPLIER PROGRAM

The DiCarlo Approved Supplier Program ensures that all suppliers are selected if the requirements for food safety and quality assurance are met. DiCarlo uses only known, appropriately licensed and approved (where applicable) sources for all products received. Steps are taken to ensure that suppliers and transporters practice appropriate food safety and security measures.

SUPPLIER PERFORMANCE EVALUATION

Supplier performance is monitored and reviewed periodically to ensure that all procedures are being followed. Once yearly, all suppliers are invited to review the performance and suggest improvements.

The first step to becoming an approved vendor is to complete our [questionnaire](#) or contact our Purchasing Department at (631) 758-6000.
