# Cheese of the Month

## Fresh Cotija Cheese

#19502 2/12 lb. avg.

Cotija is a flavorful artisan cheese, it is used as an accent cheese due to its abundant flavor. Made with pasteurized Grade A part skim milk, and other natural ingredients, Cotija is a natural authentic cheese. It has a robust and dry crumbly texture that is perfect for topping.

## Grilled Corn on the Cob with Chili-Lime Butter and Cotija Cheese

### Ingredients

6 ears corn, in their husks  
1 cup unsalted butter, at room temperature  
1 tablespoon chili powder  
1 teaspoon cayenne pepper  
Juice of 3 limes  
Salt and freshly ground black pepper  
1 cup cotija cheese or feta cheese

### Directions

Heat a grill to medium-high heat. Grill the corn in their husks until the husks start to blacken, about 3 minutes per side.

Mix together the butter, chili powder, cayenne pepper, lime juice and some salt and black pepper in a bowl until incorporated.

Peel back the corn husks, leaving on to use as handles while eating. Rub the chili-lime butter all over the corn. Garnish with the cotija cheese.

QUALITY FOODS

**Perfect for summer salads and salad bars!**

## Honey Mustard Duck Breast with Orange Sauce

- 1 1/2 tbsp maple syrup
- 1 1/2 tbsp orange juice
- 2 1/2 tbsp honey
- 1/2 tsp grated ginger
- 5 oz chicken stock
- 1 tsp cornstarch
- 1 duck breast, fat scored in a diamond pattern
- 1 1/2 tbsp mustard
- 1 orange, peel and pits removed and sectioned

Make the orange sauce by bringing to a boil the maple syrup, 1 tablespoon of the honey, the orange juice, ginger and chicken stock. Add the cornstarch, mixed with a little water to the pan and continue to boil until the sauce has thickened. Set aside and keep warm.

Mix the rest of the honey and the mustard. Sear the duck breast on the fat side in a heavy skillet for about 3 minutes. Dip into the honey mustard mixture and broil for about 10 minutes in the oven. Slice and serve with the orange sauce and orange sections.

Long Island has a proud reputation of producing the finest duck in the world. Crescent Duck Farms takes great pride in continuing this legacy.

At Crescent Duck, we spend a great deal of effort and energy towards the care of our birds, which involves both their inner health and outer well-being. **Hormones are never used. Antibiotics are never used to assist bird growth.**

# FEATURED PRODUCE ITEM

## Tomatillos

#885 10 lb. crate

#1254 35 lb. crate

northshire farms

The tomatillo, or husk tomato, is a relative of the common tomato native to Latin America, where it is still popular in cuisine. It has been cultivated for thousands of years, and the plant were introduced to Europe after the conquest of Central America.

When picking out a tomatillo, look for a fresh looking husk, rather than one that is brown or wrinkled. The fruit, if it can be felt, should be firm to the touch, and those that are soggy or discolored should not be purchased. If the grocery store permits it, consumers can peel the husk back to check the color as well.

The fruit can have a refreshing, crisp flavor that is an excellent complement to salsas and other Mexican dishes. They can either be eaten raw or briefly blanched in a pan until their skins burst, creating a smooth sauce to work with. The tomatillo is also rich in vitamin C, making it nutritious in addition to delicious. Chilies complement its cool flavor very well, and they can be mixed as a sauce and fresh coriander for a simple salsa.

## Roasted Tomatillo Salsa

### Ingredients:

- 1 1/2 pounds fresh tomatillos
- 5 fresh serrano chiles
- 3 garlic cloves, unpeeled
- 1/2 cup fresh cilantro
- 1 large onion, coarsely chopped
- 2 teaspoons coarse salt

### Directions:

Preheat broiler.

If using fresh tomatillos, remove husks and rinse under warm water to remove stickiness. If using canned tomatillos, drain and measure out 2 cups. Broil chiles, garlic, and fresh tomatillos (do not broil canned) on rack of a broiler pan 1 to 2 inches from heat, turning once, until tomatillos are softened and slightly charred, about 7 minutes.

Peel garlic and pull off tops of chiles. Purée all ingredients in a blender. • Salsa can be made 1 day ahead and chilled, covered.

## Popular Plastic Alternatives to Meet Your Sustainability Goals

Efforts to improve environmental sustainability have increased exponentially in the last couple of years, with the foodservice industry at the forefront. Restaurant chains, local restaurants and the hospitality industry have been some of the most vocal and active, reducing waste starting with the little things and switching to greener alternatives where possible. Amongst the most popular items affected are straws and take-out containers but there are many more items to choose from to make a difference.

### Straws:

The switch towards sustainable straw alternatives has been the most covered in recent news. Foodservice giants from major chains to bars and hotels have released entire marketing campaigns to showcase the progress they're made towards more eco-friendly products. Paper straws are the most common alternative, but other non-plastic options include reusable metal or glass, compostable, wheat, and even avocado seed straws. **DiCarlo items #545512, 546855, 546850**

### Cocktail & Sandwich Picks:

Switching to sustainable cocktail and sandwich picks is relatively easy, since is an abundant selection of wood and bamboo products o choose from. Wood and bamboo are considered better for the environment since they are made from renewable sources instead of petroleum. They are also compostable, so they won't spend 100's of years in a landfill. Besides being much better for then environment, these picks have a more modern design and give dishes an all-natural look. Bamboo steak markers are also available.

**DiCarlo items #531120, 547100, 547150**

### Drink Stirrers:

Wood and bamboo stirrers are available for use in hot or cold drinks. They're perfect for replacing plastic stirrers and reduce the need for disposable spoons for drinks. Like their cocktail and sandwich pick counterparts, these stirrers feature a very modern and stylish look. Plus, they are compostable, which is perfect for an item that is used for only a couple of seconds and then tossed away. **DiCarlo items #547402, 546857, 547304**

### Take-Out Containers:

Take-out is a major source of waste and many companies are still trying to come up with alternatives that not only offer non-plastic materials but also perform well. Some options are paper, bamboo and even compostable containers. Along with the containers themselves are the plastic bags that the food is carried in. One easy and effective change to make is to switch from plastic take-out bags to paper ones. **DiCarlo items #525300, 525304, 525306, 553400, 553402, 525800, 525802, 525804, 556073, 556074, 556072**
