## Brussel Sprouts

#186 1/12 lb.

#187 1/25 lb.

northshire farms

Brussels sprouts are compact rounded leaves tightly bound into individual spherical-shaped heads ranging in diameter of one to two inches when mature. Their leaves range from sea green to fern green, some varieties featuring blushed violet red tips. They offer the flavors of the earth and the bitter sweetness of cabbage. The younger the Brussels sprouts carry a sweeter more palatable flavor. Brussels sprouts are available year-round.

Classic cooking methods for Brussels sprouts include roasting, braising or pan frying them in butter with savory accoutrements such as garlic, shallots, thyme, rosemary and sage. Brussels sprouts take on the accompanying flavors which gives them more depth and appeal while also bringing sweetness to the Brussels sprouts. Slow roasting the sprouts in oil or butter is a great way to remove the sprout's natural bitterness.

Store Brussels sprouts cold and moist, 32°-40°F and 95 percent relative humidity. Cold and moist storage is a challenge. Refrigerators provide the cold, but they also dry the air. Store sprouts unwashed wrapped in a moist towel in a perforated plastic bag in the vegetable crisper section of the refrigerator. Refrigerated sprouts will keep for 3 to 5 weeks.
