

Shank Fillets

Heart-healthy and protein rich, our mild-flavored, firm-textured shank fillets are perfectly suited for any fish recipe. Shank fillets have been deboned and have the belly flap (nugget) removed.

■ Fresh Packed on Ice

Our innovative processing, packaging and shipping methods guarantee our customers receive the highest quality catfish products available. Computers regulate air and water temperatures in all areas of the plant to discourage bacteria growth and product degradation. We also operate our own fleet of refrigerated tractor-trailers to deliver our products throughout the United States. Stored at the proper temperatures, our fresh products are safe to consume up to 14 days from packaging.

- Packaged at the peak of freshness
- No added preservatives
- Attractive appearance for display
- Maintained texture and moisture
