

Certified Organic
by Pro-Cert

We are committed to the highest quality standards in the aquaculture industry. This organic benchmark provides assurance to our clients and consumers that Iceberg Select™ Organic Mussels have been produced and processed in a sustainable, environmentally sound manner.

100% Natural, Delicious & Always Fresh.

Naturally the right choice for you.

In this day and age, consumers demand more than just great taste, they want their meals to be healthy and nutritious, as well. Mussels are an excellent source of Omega-3 fatty acids, which studies show helps in development of the brain and visual acuity, as well as in the prevention of heart disease. Mussels are also an excellent source of zinc, needed for immune system strength in fighting infections and aids in overall brain function.

While other growers produce mussels in water depths of 20 to 40 feet, Iceberg Select™ mussels are grown on deep water sites, in depths of 40 to 120 feet. The clear iceberg chilled waters of Newfoundland provide a pure and clean growing environment, rich in nutrients and pollution free.

This makes Iceberg Select™ mussels 100 percent natural, 100 percent delicious and the right choice for you!

Badger Bay Mussel Farms Ltd. and its affiliated growing operations have existing and planned mussel growing areas of more than 3000 hectares. When fully utilized, these growing areas will produce in excess of 20 million pounds of Iceberg Select™ mussels.

Certified Organic by Pro-Cert

Fresh mussels in the shell. Fresh packed mussels on ice.

Selective harvesting, careful processing and thorough inspection before shipping ensure our Iceberg Select™ mussels are superb in quality, size and taste. Available live, in mesh, poly bags or bulk. Custom orders are welcome. Look for our frozen vacuum packages in stores.

Ordering
